

**Stakeholder-Workshop**  
on behalf of the ongoing research project on  
**Migration from Eritrea and Ethiopia**

**January 15th, 2011, 10a .m.-4 p.m.**

Location: Iwalewa-Haus, Münzgasse 9, 95444 Bayreuth

We invite refugees and migrants from Eritrea and Ethiopia, activists, human rights organizations, self-help-groups as well as concerned lawyers to discuss the preliminary findings of the research project:

***"Learning processes, knowledge and communication among young urban migrants from Eritrea and Ethiopia"***

Research network "migration and knowledge" ("formig")

In our research we have met numerous refugees and migrants living in Bavaria but also in Shimelba and Addis Ababa, Khartoum, Cairo, Jerusalem and in Istanbul. Our findings reveal migrants experiences alongside their journey through risky and dangerous environments, where uncertainty, precariousness and humiliation are daily routine. We think that refugees and migrants, who have arrived in Germany, their situation and specific problems, cannot be understood without considering their everyday life conditions and experiences in early stages of their journey.
